

## SUNY Stony Brook University

Building K at West Apartments  
STONY BROOK, NY

### **Project Specifications:**

Project Area: +/- 4 Acres

Proposed Building: 53,000sf

Estimated Project Cost: \$30 Mill

Project Completion Date:  
August 2020

The project consists of the construction of a 3-story Residence Hall known as Building K and will be developed adjacent to Building J at the West Apartments on Stony Brook University campus. Our office will work with Stony Brook University Facilities Management to obtain infrastructure maps for the campus as well as coordinate a site survey and geotechnical investigation. We will work with the project design team to site the building location and prepare the required Design Documents and written construction specifications for the site development. Our office will provide onsite drainage design, connection to the onsite sanitary sewer and other utility connections, as well as site improvements including sidewalks and access drives. Our services will also include assistance during the bid and construction process.
